

## **FARM TO PIZZA GRADES 1-3 POST-VISIT ACTIVITIES**

### **Wrap-up/Action:**

1. Have students draw pictures of the new Food Pyramid with pictures of the appropriate types of food within the sections.
2. Have the students design their own new recipe for a pizza they think they would like to eat.
3. Have students design a New Pyramid poster

### **Extensions:**

For several days after visiting Little Hands on the Farm and engaging in the tomato/pizza activity, have students make a New Pyramid food chart and track their daily food choices. At the end of the assigned time, have students determine if their daily choices included all of the good groups from the New Pyramid.
